1946-20

More than just a brand.

CRESSI'S PACKAGING

Cressi was founded, and still lives, just steps from the sea in Genoa. We breathe sea air in everything we do, and every one of our PRODUCTS is inspired by the incredible beauty of the waters we see before us. With 150 employees and eight branches, Cressi is a world leader in the PRODUCTION of diving equipment, innovation, and development with exports accounting for 80% of turnover.

BUT THE ONLY ONE STILL RUN BY A FAMILY

In Cressi we have always focused on sustainability by orienting ourselves to the protection of the environment and especially of our seas. We follow the sustainable direction on many fronts, such as in the choice of packaging materials, where we are reducing plastic and replacing it with recycled or recyclable materials. We are also very active in sponsoring events related to cleaning up the seas to ensure that future generations have our same opportunities."

Marco Cressi

OUR STORY

1930

1938
Brothers Egidio and Nanni Cressi start to handcraft the first masks and spearfishing guns. These are the origins of Cressi, the oldest scuba diving equipment company worldwide.

1950

1952
Pinocchio Mask, which makes equalization possible. It is a major innovation in the early '50s. It is the most famous and most sold mask in the world's history, and it is still included in the catalogue.

1953
Rondine Fins - Also in the field of fins, Cressi invented the model that has inspired all other manufacturers, the first floating model in the world.

1957
Cressi athlete Mario Catalani wins the first spearfishing World championship and get the gold medal in Yugoslavia.

1970

1970
Equi-vest - In 1970, Cressi was the first manufacturer in the world to produce Equi-Vest, a futuristic jacket that became one with the scuba tank, supplied by a hose that drew air directly from the first stage. This was the first incarnation of the modern BC.

1970
Rondine L long fins - The world leader of molding rubber fins, Cressi developed the Rondine L long fins, which enabled Jacques Mayol to go onto achieve his astonishing freediving records.

1979
Fins range - Alongside the various rubber fin models, a futuristic model was presented with a reinforced nylon blade, called the Rondine Gara, a fin that thirty years down the line is still going strong, and has been adopted by world class freedivers and spearfishermen the world over.

1940

1943

The first Cressi mask, The Sirena, was hand crafted in 1943. It remained in the catalogue, with various updates, for more than 30 years.

1946

The Cressi company is officially founded in Genova, Italy.

1947

In 1947 the first oxygen rebreather was produced; Aro AR47. It was already highly advanced and fitted with sophisticated technical solutions, like the condensation receptacle.

1960

1965

Cressi opened one of the first workshops that specialized in producing optical masks. Thanks to Cressi, even people with visual defects could now get full enjoyment of the underwater universe.

1980

1983

Jacques Mayol, the first man in the world to challenge the 100m barrier. He reached a depth of 105 meters. The episode has gone down in history, the record was obtained in the waters of the island of Elba in 1983.

1988

Apache Arbalète - Cressi produced a complete range of Arbalète spearguns to join the pneumatic guns, called the Apache, which very soon became the Champion speargun in the world.

1989

Cressi athlete Renzo Mazzarri wins the spearfishing world title in Italy.

1990

Cressi continues its international expansion and the products are by now distributed in over 90 countries worldwide.

1999

Cressi Athlete Umberto Pelizzari sets the freediving "No Limits Absolute Variable Weight" World Record in Portofino (Italy) reaching the depth of 150 meters.

2010

2011

The Leonardo dive computer watch is introduced, the first of the PRODUCTS designed in-house by Cressi Elettronica in order to guarantee optimum quality, safety and reliability.

2013

The French freediving champion Guillaume Néry becomes a Cressi PRODUCT endorser. The Giotto dive computer watch is introduced; it processes the data from repeat multi-day dives and dives with gas mixtures and also benefits from the Cressi RGBM algorithm. The Tracina wetsuit for spearfishing is introduced in a new and exclusive camouflage Dark Digital Specter Pat Cressi.

2024

2024

In recent years, Cressi has grown steadily, feeling the responsibility to use its skills and resources to support projects in both the sporting world and environmental protection. In 2024, the company supported and sponsored an innovative underwater art and dance course with acclaimed artist Julie Gautier. In parallel, Cressi sponsored and supplied equipment for the Abyss Cleanup project, a non-profit initiative dedicated to identifying and removing marine litter from the seabed.

2000

2000

Big Eyes was the first mask in the world with raked lenses in an upside-down teardrop shape, an innovative form that gives the diver a complete view of all the equipment worn. They became the most widely copied and imitated mask in the world, a gratifying appreciation of how far ahead Cressi is in the design of its products

2021

2021

Hydrosports is the result of Cressi's experience, consisting of tradition, innovation and quality, since 1946. With its close relationship to the sea environment, the Cressi team has been able to develop this new collection in response to the direct needs it encountered in practice and through water tests on its product

2026

The Cressi company is still entirely owned by the Cressi family, which carries on with the same passion, the work started by brothers Nanni and Egidio Cressi. Its spirit lies in the manufacturing tradition, with a clear preference for the conception and realization of its PRODUCTS in-house, from the initial design through to the smallest details. Cressi focuses on those who love all facets of the aquatic world. The company has never exaggerated with successful PRODUCTS on the market, but has instead always invested in research and development to the benefit of quality and reliability, the evolution of materials.

OUR PARTNERS

CRESSI X

In March 2019 Cressi officially became the partner of **Y-40® The Deep Joy**, the deepest pool with thermal water. From that moment on, the recreational diving and freediving equipment available at Y-40® is provided by Cressi. Y-40® The Deep Joy is the place where everything is possible, where you can live the most amazing aquatic experiences. 4,300 cubic meters of thermal water where there are free diving and scuba diving courses. It's a safe environment for professional exercises and scientific research, in addition to being an amazing film set and area for photographic and advertising services. Y-40® has an area of 21x18m; the maximum depth is 42.15 meters with different platforms at intermediate depths and caves for technical activities. The deep pool can be visited, it is possible to walk in the transparent tunnel that crosses the structure, discovering the magic of this big human aquarium.

Steve Aoki is one of the world's most influential DJs and music producers. Known for his high-energy performances and global reach, Aoki is also a visionary entrepreneur, philanthropist, and pop culture figure, active in fashion, gaming, and digital art.

In 2026 Steve Aoki teams up with Cressi for a bold, limited-edition line inspired by his **Hiro** and **Hyro** characters.

CRESSI X

THE BUCKET LIST FAMILY

We are the Gee family, just your "average" family working from all around the world as Family Travel Journalists! Our story began on the 15th of August, 2015 when we decided to sell everything and leave home for a journey around the world together. We started an Instagram and a YouTube channel called, The Bucket List Family.

It was a difficult decision to reset our lives and sell everything but we're grateful everyday that we took that chance and were brave. We're grateful to each of you for being a part of this journey and we hope you'll keep with us as our little family and this big adventure continue to grow!

 [thebucketlistfamily](https://www.instagram.com/thebucketlistfamily)

CRESSI X
JULIE GAUTIER

A new athletic and artistic discipline inspired by the film AMA

Run, jump, fly, dance underwater, *AQUA DANCE FLOW* offers a new way of practising freediving. The brainchild of the short film AMA, which has touched thousands of people around the world, this mode of artistic expression was conceived by Julie Gautier, director, freediver and dancer, and is now available to everyone: freedivers, dancers, synchronised swimmers and the curious. It's also an excellent way to overcome your fears of the water, using games and relaxation. This activity offers a unique experience combining well-being with a physical, sporting and artistic activity.

 [juliegautier.watertale](https://www.instagram.com/juliegautier.watertale)

CRESSI X
Insta360

A brand loved by water sports enthusiasts for its innovative 360° and action cameras that bring underwater adventures to life. Through this collaboration, Cressi supports Insta360's consumer-first approach, equipping users with high-quality snorkeling masks, freediving gear, and scuba products that complement their aquatic journeys. Whether you're swimming in shallow reefs or diving deep into the blue, Cressi gear enhances the experience and Insta360 cameras make sure it's captured and shared in full. Together, we aim to inspire and make water sports more exciting, accessible, and beautifully memorable.

CRESSI BUYER'S GUIDE

2026 COLLECTION

Cressi's legacy of innovation began in 1939 with two brothers who shared a passion for the sea and a gift for technical design and working with their hands. Egidio and Nanni Cressi began by crafting masks and spearguns that would allow them to move and hunt more efficiently in the waters near their home. By 1946 their designs and products had become so popular they founded the Cressi company in Genoa, Italy. Today, although Cressi is a worldwide leader in water sports manufacturing, it is still wholly owned by the Cressi family, and the commitment to innovation is still in the company's DNA. It has a long history of groundbreaking product development, and has often been the first to bring product advancements to the market.

This history of innovation is also made possible by a commitment to manufacture products in Italy at the Cressi facility. An investment in the latest manufacturing equipment and more than 16,000 square meters of roofed space, and the ability to have the designing and manufacturing process happen side by side has led to the absolute highest standards for quality. It also allows Cressi engineers to quickly develop, test and incorporate the latest materials and technologies.

Innovations continue, the results today are the same as they were in the beginning, the most advanced and best made products in the world.

Cressi's experience and the Italian know-how gives life to the new 2026 collection.

INTERNATIONAL WARRANTY POLICY

In accordance with Directive 1999/44 EC, Cressi guarantees its products against inherent and operating defects. To offer better service to its customers and consumers, and to affirm the efficiency and quality of its manufacturing processes, it has decided to extend the terms of the guarantee as follows:

MASKS, FINS, MOUTHPIECES, GOGGLES

Two (2) years from the date of purchase (for rental or teaching use: 12 months for good operations and 24 months for defects of conformity).

Exceptions: Alterations in the color of the silicone, all damage due to exposure to the sun or the effect of chemical or environmental agents, damage due to negligence, improper use, blows, or normal wear and tear.

SWIM GOGGLES & MASKS

/SWIM GOGGLES & MASKS | SWIM FAR WITH CONFIDENCE

CRESSI

CLEAR LENSES

MAXIMUM CLARITY AND NATURAL VISION

CLEAR lenses are ideal for those who want **maximum visual transparency, especially in low-light environments or during indoor training**. Made in Italy from **acetate**, they are available in thicknesses of 1 mm and 1.5 mm and belong to filter category 0, i.e. lenses with a very light tint. The anti-fog treatment on both sides allows for prolonged use even in hot and humid environments. They are also ideal for swimmers who do not want any visual alteration or artificial colouring of the lens.

TECHNICAL FEATURES

- **MATERIAL:** Made in Italy acetate
- **TREATMENTS:** Anti-fog on both sides
- **UV PROTECTION:** UV400 – 100% protection from UVA and UVB rays
- **OPTICAL CLASS 1:** Clear, distortion-free vision
- **LIGHT TRANSMISSION:** 87%, perfect for indoor or low-light environments

PRODUCT BENEFITS

Compared to standard or untreated lenses

- They offer **superior optical transparency, ideal for accurate perception of movements in the water**
- **Total UV protection**, even if apparently colourless
- **Clear and natural vision** thanks to optical class 1, free from aberrations or unwanted refractions
- **Greater comfort in closed environments** where other lenses are too dark or tiring for the eyes

AZURE LENSES

OPTIMAL VISUAL COMFORT IN MEDIUM LIGHT CONDITIONS

• FLASH

AZURE lenses are designed to offer a **comfortable visual experience in environments with variable light conditions**, such as well-lit indoor swimming pools or partly sunny weather conditions. They are made in Italy from acetate, with a thickness of 1 mm or 1.5 mm, and fall into filter category 1, i.e. light-tinted lenses, ideal for moderate visual protection. The soft, pleasant colour helps maintain eye comfort, reducing fatigue even during long sessions. The anti-fog treatment ensures clear, continuous vision at all times, which is ideal for both training and leisure.

TECHNICAL FEATURES

- **MATERIAL:** Made in Italy acetate
- **TREATMENTS:** Anti-fog on both sides
- **UV PROTECTION:** UV400 – 100% protection from UVA and UVB rays
- **OPTICAL CLASS 1:** Clear, distortion-free vision
- **LIGHT TRANSMISSION:** 58%, perfect for medium or variable light conditions

PRODUCT BENEFITS

Compared to standard or untreated lenses

- **Total UV protection while maintaining high light transmission**
- **Reduces glare** without compromising visibility
- Offers **visual comfort thanks to its eyesight relaxing tint** and optical class 1 clarity
- Excellent visibility even in well-lit indoor environments
- **The blue tint relaxes the eyes and improves colour and contour perception**

SWIM GOGGLES LENS COATING

SMOKED LENSES

VERSATILE PROTECTION FOR OUTDOOR USE

- SKYLIGHT
- PLANET
- COBRA XP
- CLEAR EYES
- FLASH
- FLASH COMPACT
- VORTEX
- RIGHT

SMOKE lenses are one of the most popular choices for swimming goggles thanks to their ability to effectively **reduce glare in bright light conditions**. Made in Italy from acetate, these lenses are available in thicknesses of 1 mm and 1.5 mm and belong to filter category 2, **ideal for outdoor use, even on sunny days**. For those who want a lens that protects the eye from direct sunlight and reflections on the water. The internal and external anti-fog coating ensures clear vision even during intense training or competitions, preventing annoying fogging. The dark tint offers excellent colour perception and reduces visual discomfort, improving concentration and performance.

TECHNICAL FEATURES

- **MATERIAL:** Made in Italy acetate
- **TREATMENTS:** Anti-fog on both sides
- **UV PROTECTION:** UV400 – 100% protection from UVA and UVB rays
- **OPTICAL CLASS 1:** Clear, distortion-free vision
- **LIGHT TRANSMISSION:** 25%, significantly reduces brightness and glare

PRODUCT BENEFITS

Compared to standard or untreated lenses

- **Glare reduction and greater visual comfort**
- High **blue light protection** (transmittance 26.85%)
- High-quality material, made in Italy, guaranteeing aesthetic and functional quality
- Optical class 1 ensures clear vision, essential in sports where visual accuracy is important
- Anti-fog treatment on both sides

MIRRORED LENSES

MAXIMUM PERFORMANCE AND PROTECTION IN EXTREME CONDITIONS

- SKYLIGHT
- CLEAR EYES
- FLASH
- VORTEX

Mirrored lenses represent the ultimate technological evolution in swimming goggle lenses. They are made from **high-quality Japanese polycarbonate**, an extremely durable, lightweight material that is suitable for advanced treatments. These lenses are **designed for swimmers in very bright conditions, where normal lenses may not be sufficient**. The external mirror coating significantly reduces glare, improving visibility and comfort. The scratch-resistant coating protects the lens during transport or frequent use. They are perfect for athletes, triathletes, open water swimmers and anyone looking for the best in terms of visual protection and durability.

TECHNICAL FEATURES

- **Material:** Japanese polycarbonate
- **TREATMENTS:**
 - Internal anti-fog (anti-mist)
 - External anti-scratch (improved resistance)
 - External mirror coating (reflective effect + glare reduction)
- **UV PROTECTION:** UV400 – 100% protection from UVA and UVB rays
- **OPTICAL CLASS 1:** Clear, distortion-free vision
- **DESIGNED FOR:** Outdoor activities with prolonged exposure to sunlight

PRODUCT BENEFITS

Compared to standard or untreated lenses

- **Effective optical barrier against direct sunlight and reflections**
- Longer life thanks to **scratch-resistant treatment**
- **Improve visibility even in rough water or with reflections, where traditional lenses fail**
- Unique combination of sporty aesthetics and functional technology

SKYLIGHT

ADULT SIZE | 180 DEGREES WIDE VIEW SWIM GOGGLES

13.5x21 cm - 5.3x8.3 in

70 years of mask designs and today's advanced technology comes together in this Cressi master-piece. We are proud to introduce the best open ocean google in the market. It is not only for the serious swimmer. The Skylight has the very best fit for hours and with wide vision

to keep track of the directions which is actually what every swimmer would like to get out of a google. If your customers needs the very best google in the market, this is what you should get them.

MADE IN ITALY

ACQUAMARINA

BLUE METAL

Photo by: Cressi Italy

The Galileo goggles have marked a historical turning point in the swimming goggles sector. In actual fact, their flat lenses are mounted on a rigid frame, just like a diving mask, thus guaranteeing perfect vision with no distortion. The shape of the lenses, which are perfectly flat and have no side curving, also prevents annoying distortion at the sides of the lenses. The watertight seal is extraordinary and

comfort is excellent. The strap has a quick adjustment system (Cressi patented), similar to that used on the prestigious Cressi-sub masks, which allows quick and easy adjustment. The shatterproof lenses have external anti-scratch treatment, UV protection and internal anti-fog treatment.

CLEAR EYES

PURE SILICONE SWIM GOGGLES WITH MOLECULAR
ANTI-FOG LENS TREATMENT

13.5x21 cm - 5.3x8.3 in

Cressi's Clear Eyes swimming goggles are a true masterpiece of technology and design, conceived to offer superior performance compared to other models in the range. The body of the goggles is made of hypoallergenic silicone, chosen for its exceptional comfort and safety, minimizing the risk of allergic reactions during prolonged use. The Clear Eyes' bi-material frame has been carefully designed to ensure an optimal waterproof seal. This frame combines durable and flexible materials to adapt to various face shapes perfectly, resulting in a secure and comfortable fit. The lenses are made with an innovative, patented design by Cressi, featuring a clip fastening system that allows the thickness of the frame to be reduced to a maximum of 1 mm, considerably widening the field of vision, almost as if the frame had been eliminated. In addition, the Clear Eyes lenses have been subjected to an advanced anti-fog treatment in the laboratory, which makes them significantly more resistant to fogging than other lenses in the Cressi range.

This treatment guarantees crystal-clear visibility in all swimming conditions. Furthermore, these lenses have been designed to be more resistant, protecting the eyes from UV rays and shocks. The seals have been designed using an avatar with Western facial features, taking into account the curve of the nose bridge and eye sockets. This makes the flexible rubber nose bridge extremely adaptable; its flexibility allows the goggles to conform better to the face, increasing comfort and improving the fit, optimizing it for a wide range of users. Like all Cressi products, Clear Eyes goggles feature the micrometric strap adjustment system, a revolutionary design that Cressi introduced, patented and launched on the market over 20 years ago. Perfect for both serious and recreational swimmers looking for the best in terms of comfort, adaptability, and visual performance, Stream goggles are ideal for those who want to push their limits in the water with maximum safety and comfort.

Micrometric Buckle

5.956.778

Device for regulating the length of a Swimming Goggles Strap

INVENTORE / INVENTOR
Carlos Alberto Godoy

**AZIENDA TITOLARE DEL BREVETTO /
COMPANY PATENT TITLE**
Cressi

NUMERO DI BREVETTO / PATENT NUMBER
5.956.778

ANNO DI DEPOSITO / FILING YEAR
Genova, 1998

ANNO DI CONCESSIONE / APPROVAL YEAR
Genova, 1999

At the end of the 1990s, Cressi developed a small but ingenious device designed to make swimming goggles more comfortable to use: a strap adjuster that was simple to use and highly effective. The system allowed the length of the strap to be adjusted precisely thanks to a lever with a small tooth that hooked onto the transverse ridges on the strap.

Simply lift the lever, adjust to the desired length and close it to lock everything in place.

A practical solution designed to prevent slipping during use and ensure a perfect fit at all times. This system represented an important step in the history of swimming accessories.

It is a concrete response to a real need: to be able to adjust goggles easily, quickly and safely. A technical detail that has made life easier for many swimmers, both professional and amateur, and made Cressi a pioneer.

Fig. 4

VORTEX

ENGINEERED WITH OUR INNOVATIVE AVATAR-FIT TECHNOLOGY

19x4,3x5,5 cm - 7.5x1.7x2.2 in

Vortex are innovative swimming goggles designed to offer unparalleled comfort and versatility. Their unique construction is co-moulded with two materials: TPE and a semi-rigid compound for durability and strength. This combination of materials allows perfect adaptability to different facial profiles thanks to the elastic element integrated in the frame. The Vortex lenses are slightly curved on the outside

to widen the field of vision, maximising visibility under water. They are treated against scratches and have an anti-fog inner coating to ensure clear vision in all conditions. Vortex goggles are also equipped with micrometric adjustment buckles patented by Cressi for a long twenty years. These goggles are ideal for swimmers seeking the highest quality and functionality.

RIGHT

THE FIRST SWIM GOGGLES IN HISTORY WITH A MICROMETRIC ADJUSTABLE BUCKLE - PATENT 5.956.778

13.5x21 cm - 5.3x8.3 in

The Right Goggles feature a classic round lens shape. The lenses are also slightly curved which provides excellent peripheral vision. The TPR gaskets around the lenses form a comfortable, watertight seal around the eye socket. The lenses feature external anti-scratch treatment, UV protection and internal anti-fog treatment.

The headband is made of 100% hypoallergenic silicone for maximum comfort and fit. The strap and buckle is also interchangeable with all other goggles and masks in the Cressi Swim Line.

LITTLE TURTLE

NEW 2026

KIDS SWIM VEST WITH DOUBLE HANDLE

The Cressi Little Turtle Swim Vest is designed to offer children comfort, safety, and confidence during their first swimming experiences. Its unique rounded shape ensures an exceptional ergonomic fit, adapting naturally to the child's body while allowing full freedom of movement in the water. Crafted from ultra-soft neoprene, the vest is gentle on the skin and offers comfort. The vibrant, high-visibility colors not only make the vest fun to wear but also help adults easily spot the child in the water. The strong safety straps with child-proof buckles keep the vest securely in place, preventing the

child from unfastening it during use. On the back, two handles serve distinct and practical purposes: one is positioned to help adults guide and support the child as they learn to swim, while the other is placed higher up for convenient storage and drying. Ideal for pool sessions, beach days, and swim lessons, Little Turtle is an essential tool for safe and enjoyable aquatic adventures.

-PPE in conformity with the Regulation EU 2016/425 and the PPE (Enforcement) regulation 20218)

FROGGY NEW 2026

KIDS SWIM VEST WITH DOUBLE HANDLE

The Cressi Froggy Swim Vest is a reliable and comfortable buoyancy aid designed to help children build water confidence and enjoy their first swimming experiences safely. Froggy features a more classic vest shape that fits securely around the child's torso while still allowing excellent freedom of movement. Made from soft, high-quality neoprene, it offers a snug, cozy feel. The vibrant, high-visibility colors not only make the vest fun to wear but also help adults easily spot the child in the water. Froggy is equipped with adjustable safety straps and child-proof buckles that ensure a

secure fit and prevent unintentional unfastening during use. For added practicality, it includes two rear handles: one lower handle for guiding and supporting the child during swim practice, and one upper handle for easy drying and convenient storage. Cressi Froggy combines functionality, comfort, and vibrant design to make every swim safe and fun.

BALI

DRY FULL FACE MASK FOR ADULTS IN SILICONE WITH CENTRAL SNORKEL

45x28 cm - 17.7x11 in

Elevate your snorkelling experience to the next level with the 'Bali' full face mask by Cressi, designed for underwater explorers seeking high quality and comfort. This mask provides a crystal-clear, expanded vision thanks to its ultra-clear polycarbonate lens, allowing you to admire every detail of the marine world. Comfort is ensured by the 100% silicone skirt, which adapts perfectly to your face, creating an airtight and comfortable seal for a seamless snorkelling experience. In addition, the intelligent design of the dry snorkel, with its flotation valve, facilitates calm and continuous breathing, preventing water from entering and allowing you to focus on the wonders around you. Safety is a top priority for the 'Bali' mask. The advanced breathing system is a key feature,

carefully designed to minimise CO2 stagnation, ensuring a safe and comfortable snorkelling experience. This sophisticated system guarantees that fresh air is constantly renewed in line with the strictest safety standards, giving you the peace of mind to enjoy exploration without worry. Easy to carry with you thanks to the foldable snorkel, the 'Bali' also comes with an adjustable nylon strap and the action camera space, to capture the most exciting moments of your underwater journey. Choose the 'Bali' snorkel mask by Cressi for a safe, comfortable and unforgettable underwater adventure, where safety merges with innovation to offer you the ultimate experience.

The Cressi Baron is a full face mask designed to deliver a natural, comfortable, and safe snorkeling experience. It allows effortless breathing. Its 180° panoramic lens offers an exceptionally wide field of view, enhancing underwater visibility. The integrated dry-top system prevents water from entering the

breathing tube, while the internal airflow system keeps the lens clear and fog-free at all times. Made of silicone and equipped with adjustable straps, the mask ensures a secure and ergonomic fit. The Baron is not suitable for diving or freediving activities.

FULL FACE SNORKELING MASK FOR KIDS

BLACK/CLEAR/RED

AZURE/BLUE/BLUE

PINK/PURPLE/WHITE

TECHNICAL FEATURES

- Fun, engaging design to spark children's curiosity.
- Ultra-clear polycarbonate lens for a wide, clear underwater view.
- Soft, hypoallergenic silicone skirt for comfort and a snug fit.
- Safe breathing system designed to minimize CO2 buildup and ensure optimal airflow.
- Foldable snorkel and adjustable strap for easy transport and use.

The Kiddo full face mask is specifically designed for children, with a compact structure and a playful look that resembles a friendly sea creature. It's the perfect way to introduce kids to snorkeling in a fun and safe way.

The ultra-clear polycarbonate lens offers a wide, bright field of vision, allowing young explorers to discover the underwater world with excellent clarity. The soft, hypoallergenic silicone skirt adapts to children's faces,

providing comfort and a secure seal against water entry.

The integrated breathing system is engineered to optimize airflow and reduce CO2 buildup, supporting natural, effortless breathing throughout the activity.

Lightweight, compact, and easy to wear, the mask features a foldable snorkel and an adjustable elastic strap—ideal for every little explorer's adventure.

"Inspired by the raw beauty and vibrant spirit of Indonesia's Komodo Island, the Komodo Full Face Mask combines bold design with high-performance functionality. Engineered from high-quality materials, this newly designed mask is the perfect travel companion for underwater explorers who demand comfort, style, and clarity. With its expansive 180° panoramic field of vision, you'll enjoy an immersive snorkeling experience like never before. The advanced no-

fog system keeps your view crystal clear, while the integrated purge valve ensures easy water drainage. The dry splash snorkel prevents water entry, giving you peace of mind even in choppy conditions. Featuring bright, eye-catching colors and an ergonomic fit, the Komodo is designed for amazing all-day comfort. Available in two sizes, it provides a secure and adaptable fit for a wide range of face shapes and sizes."

KIDDY NEW 2026

FULL FACE SNORKELING MASK FOR KIDS

42x28x8 cm
16.5x11x3.1 in

BLACK/CLEAR/RED

AZURE/BLUE/BLUE

PINK/PURPLE/WHITE

TECHNICAL FEATURES

- Fun, engaging design to spark children's curiosity.
- Ultra-clear polycarbonate lens for a wide, clear underwater view.
- Soft, hypoallergenic silicone skirt for comfort and a snug fit.
- Safe breathing system designed to minimize CO2 buildup and ensure optimal airflow.
- Foldable snorkel and adjustable strap for easy transport and use.

The Kiddy full face mask is specifically designed for children, with a compact structure and a playful look that resembles a friendly sea creature. It's the perfect way to introduce kids to snorkeling in a fun and safe way. The ultra-clear polycarbonate lens offers a wide, bright field of vision, allowing young explorers to discover the underwater world with excellent clarity. The soft, hypoallergenic silicone skirt adapts to children's faces,

providing comfort and a secure seal against water entry. The integrated breathing system is engineered to optimize airflow and reduce CO2 buildup, supporting natural, effortless breathing throughout the activity. Lightweight, compact, and easy to wear, the mask features a foldable snorkel and an adjustable elastic strap—ideal for every little aquatic adventure.

The Cressi Baron is a full face mask designed to deliver a natural, comfortable, and safe snorkeling experience. It allows effortless breathing. Its 180° panoramic lens offers an exceptionally wide field of view, enhancing underwater visibility. The integrated dry-top system prevents water from entering the

breathing tube, while the internal airflow system keeps the lens clear and fog-free at all times. Made of silicone and equipped with adjustable straps, the mask ensures a secure and ergonomic fit. The Baron is not suitable for diving or freediving activities.

F1**PREMIUM SILICONE FRAMELESS SNORKELING MASK**

Frameless masks are loved by many divers for their low-profile and ability to fold flat for easy carrying, even in a BC pocket. Cressi's frameless design bonds a high-grade silicone skirt directly to a single lens for the ultimate in simplicity. The low-internal volume allows for effortless

clearing and quick-adjust strap buckles are molded directly into the mask for a flexible fit and reduced drag. It also represents an unbeatable value, with a cost roughly half that of similar masks.

FIJI

ADVANCED ANTI-FOG SYSTEM + TEXTILE STRAP MASK

FIJI is a snorkeling mask that features the ultimate Cressi Fog Reducer System. A system of membranes channels the air towards the lower part of the mask, away from the glasses.

A second membrane seals the eye socket, so that warm air coming from exhalation does not get in contact with the glass at all. This dramatically limits the fogging of the mask. Another feature of our Fog Reducer system is the heat exchanging structure on the top of the mask: silicone blades facilitate heat exchange between the mask and the water, balancing the temperature between the two in a shorter time. This also helps to reduce fogging. Fiji is a mask thought for snorkeling. It features an elastic band, making it an easy to use mask, that will

be appreciated by beginners, people with long hair. It can be used for scuba diving too, but keep in mind that an elastic strap is not as firm as a silicon one. The lenses are not treated chemically and it should be remembered that when the mask is new, as is the case with all masks, we advise you to clean them well with a strong soap (toothpaste, dishwashing liquid soap, degreaser). Also use the normal antifogging procedure before using the mask, with an anti-fog spray or saliva on the dry glass.

Photo by: Asya Brynne

TECHNICAL FEATURES

- Low volume
- Lightweight
- Single lens
- Tempered glass lens
- Fast-adjusting buckles
- High grade silicone seals bonds directly to the lens for lower weight and reduced drag

Musa is a frameless mask that boasts a low internal volume while offering a wide field of view in all directions. The specific design uses the assembly of the silicone skirt directly over a single tempered glass, guaranteeing superb sturdiness and the perfect watertight seal. The low weight of the mask makes it ideal for packing and travel. The flexible fit and reduced drag are appreciated for freediving

and spearfishing, snorkeling and diving. Making this mask a fantastic choice for any occasion. Additionally, the single tempered glass lens offers a wide field of vision, allowing the wearer to enjoy the underwater world when spearfishing, snorkeling, or scuba diving. The micro-metrically adjustable buckles are comfortable and effective, making adjusting the Musa quick and easy.

OCEAN

ADULT SIZE

The patented concept of raked lenses and their special "inverted drop" is developed further here. The lenses are placed as closely as possible to the eyes, with the further increase in the field of vision taken to the maximum levels possible. The soft silicone skirt has a new profile and a wide sealing ring for excellent grip and

unprecedented comfort. The internal volume of the mask is exceptionally low, lower than that of many free diving models and the weight is decidedly low. Two pressure buckles, integrated into the headband, allow for quick and accurate adjustment of the strap.

PINOCCHIO

ADULT SIZE HERITAGE MASK - THE FIRST MASK WITH A NOSE POCKET

A real CULT when it comes to masks, Pinocchio is the most famous mask in the world. It began life in the first half of the '50s, and was the first mask that came with a special lodging for the nose, making compensation possible. Adored

by entire diving generations all over the world, its design was so advanced at the time it was launched on the market, that it is still valid today.

NUMERO DI BREVETTO / PATENT NUMBER

ACS, MICA, UIBM, fasc. 518285

ANNO DI DEPOSITO / FILING YEAR

Genova, 1953

ANNO DI CONCESSIONE / APPROVAL YEAR

Genova, 1955

In the 1950s, diving masks were essential but still had significant limitations. None allowed divers to pinch their noses for equalizing pressure during descent, making each dive more challenging—especially for beginners. With the Pinocchio mask, everything changed: its unique design and the inclusion of the nasal pocket made it finally possible to breathe more easily and equalize with comfort. The lenses, positioned close to the eyes, also provided a wider and clearer field of vision. The mask quickly became more than just a piece of equipment—it became an indispensable companion for every underwater adventure.

The "Pinocchio" mask was born from the desire to offer divers a truly comfortable and practical tool, perfectly suited to the real demands of underwater exploration. Made from soft, flexible material, the mask is molded in one piece that wraps around the face, from the upper lip to the forehead. Inside, it features protective lenses and—marking a world first at the time—a special compartment for the nose. This innovation revolutionized the diving experience, making it more natural, safer, and easier for everyone.

- 100% High Quality Silicone.
- Wide field of view.
- Soft silicone mask skirt for comfort.
- Designed for women and younger divers.

PERLA JUNIOR

AGE 7-13

Smaller version of the PERLA mask, suitable for women and young people. This mask has separate lenses, a skirt edge that adapts to most faces and a small inner volume, perfect for free-divers. The skirt is made from soft hypoallergenic

transparent silicone. The visibility provided by the double lens and the unusual shape of the frame extends in all directions. Excellent seal on many face types. Quick-release strap buckles.

SIRENETTA JR

AGE 7-13

The Sirenetta is the smaller version of the popular Sirena mask, mainly designed for women and young divers. This mask has a single lens and is designed for snorkeling, swimming and scuba diving. The visibility provided by the single lens and the unusual shape of the frame extends in all directions.

The skirt is made of soft hypoallergenic silicone that adapts at the face ensuring comfort and a perfect seal. The strap is slit and made of silicone to ensure comfort and a perfect hold. The length of the strap is easy to adjust thanks to the quick-release strap buckles.

PIUMETTA KID

AGE 3-6

Piumetta is not only a minimized version of a senior diving mask, as we already produce a junior version called the ondina, rather all of the dimensions have been reconfigured for optimum adaptation to the physiology of smaller individuals. Thus, not only the critical

frame contact areas (nose, bro, etc.) are left protected, rather the eyes are perfectly centered in the glass display for maximum visibility. Piumetta shares the frame materials and technology used in professional masks with soft silicone and a sturdy polycarbonate display

SNORKELS

/ SNORKELS | FREEDOM TO BREATHE NATURALLY

DRY

ADULT SIZE

The dry-top design allows users to take every breath with confidence and focus on the reef below. A float-activated valve instantly seals off the breathing tube if submerged while swimming or from overhead waves. A generous

bore provides ample airflow and a lower purge valve enables instant clearing when needed.

PRODUCT	*CASE PACK	CODE		RRP €
DRY SNORKEL CLEAR/YELLOW	-	ES259010		34,99 €
DRY SNORKEL CLEAR/PINK	-	ES259040		34,99 €

DRY SNORKEL BLACK/YELLOW	-	ES259510		34,99 €

18x53 cm - 7x20.8 in

TECHNICAL FEATURES

- Dry-top valve seals breathing tube when submerged
- Flexible lower bore reduces jaw fatigue
- Mouthpiece drops away when not in use great for scuba divers
- High-quality silicone mouthpiece is comfortable and durable
- Angled mouthpiece reduces jaw fatigue
- Lower purge valve allows water to be quickly expelled
- Streamlined design reduces drag while swimming
- Adjustable clip for securing to any mask

SEAL DRY

INNOVATIVE CLOSED-CELL FOAM SYSTEM DRY SNORKEL

By introducing the Seal Dry snorkel, Cressi has redefined the concept of comfort and performance. This innovative snorkel features a revolutionary new patented system that stands out from other dry snorkels available on the market. It has been designed by eliminating the reduction of the tube section: this allows you to breathe as if there were no dry system, guaranteeing a fluid and natural flow of air, without compromising user comfort. Another feature of the Seal Dry is its new closed-cell foam system, an intelligent and effective replacement for the traditional float. During immersion, this system creates an airtight seal that prevents water from seeping into the tube, instead maintaining a constant

and facilitated flow of air during immediate emersion. The advanced design makes the Seal Dry ideal for a wide range of diving activities, but it is particularly suitable for freediving and snorkeling. Despite its sophisticated technology, Seal Dry remains versatile and ready for any situation; it has a large valve for rapid water discharge, ensuring effective cleaning and optimal management of conditions in the water. Cressi's Seal Dry represents the pinnacle of innovation in dry devices for snorkeling and freediving. It offers an unparalleled breathing experience, allowing enthusiasts to dive the seas with confidence and comfort.

ASSORTED

You're gliding across your favourite reef, relaxed and in the zone, until a wave catches you off guard. The Cressi Mexico Pro snorkel is designed to handle those moments, so you can keep exploring. A splash guard at the top of the snorkel helps deflect surface water, reducing the chance of it entering the tube without restricting airflow. That means every breath feels easy, natural and reassuringly dry. The snorkel's ergonomic curve is shaped to follow the contours of the face more closely, and the soft

100% silicone mouthpiece combines different thicknesses of silicone to reduce jaw fatigue on long swims. The snorkel body uses a blend of flexible and semi-rigid materials. It's soft where it needs to flex, and firmer near the mask attachment point, to prevent the tube from collapsing or twisting while in use. With its thoughtful design and high-end manufacturing, the Cressi Mexico Pro snorkel keeps surface swims relaxed and enjoyable.

The Mexico snorkel is a high-end tube specifically studied to form a perfect fit on any face shape and features a completely rounded progressive profile. The upper baffle reduces water entrance due to waves with a design created to avoid damaging the air inlet flow. It has a transparent tube in a very flexible polyurethane with a mixed matte-gloss texture. The section of the

tube walls is studied to maintain the necessary stiffness in the pressure zone of the mask strip to support air circulation in this area. It has a very comfortable mouthpiece with a design that combines different thicknesses to favor its self-orientation and relieve the tension of the user's jaw after long use. T

MAUI

REPRICED 2026

OPEN HEEL SNORKELING FINS WITH EASY ADJUSTABLE STRAP

FINS
WEARABILITY:BARE
FOOTNEOPRENE
SOCKS

The principal characteristics of the Maui fin are lightness and ease of use, even for those without well-trained legs. Its weight and dimensions make it easy to stow, but without compromising performance. The Maui has been designed with the same sophisticated and advanced finite elements technology used for the first time on the Impulse and Sprint models. The dual material technology used for the blade means that it is substantially composed of two rigid lateral wings that direct the flow of water to the central section, where the overlaying of a softer and more elastic material makes it more flexible. In this way the blade flexes to create a "spoon effect", thereby contributing considerable propulsive force. The fin can be used with bare feet or light socks.

The fabric covering of the EBS strap prevents perishing of the elastic elements. The heel piece is in soft, anatomical rubber. The grab handle for fitting the fin wraps around the ankle so as to reduce protrusion and avoid chafing while swimming. Even though the EBS itself permits great adaptability and makes donning the fin particularly easy, we have fitted a cleat to the elastic strap to permit further adjustment. This function permits the user to obtain micro-adjustments – depending on whether they are wearing a sock or not – or simply to loosen or tighten to ensure the foot is held firmly in place but without excessive pressure. Dive Centres fins will have heel pieces colour-coded according to sizes to facilitate identification.

AGUA PRO

NEW 2026

LEGENDARY KNOW-HOW WITH MODERN PERFORMANCE, THE NEW BENCHMARK ON THE FIN MARKET

The Cressi Agua Pro full foot fin is the evolution of a Cressi classic, re-engineered with the latest in dive technology for maximum performance with minimum effort.

Requiring no particular sporting or technical skills, the Agua Pro delivers the same easy-to-use comfort that Cressi is renowned for.

The improved blade is incredibly responsive, generating powerful and agile thrust in the water without tiring your leg muscles. It means you can swim faster, more efficiently and more comfortably, even during longer snorkeling

or freediving sessions. The Self-Adjusting Foot Pocket uses Cressi's special compounds, which gently adapt to the shape of your foot over time, creating a secure, pressure-free fit whether you're barefoot or wearing thin neoprene socks. Lightweight and agile, the Agua Pro fin helps divers and snorkelers get more from every kick. And with great looks, exceptional build quality and an attractive price point compared to equivalent models, the Agua Pro is also an ideal choice for dive centres and rental operations using full-foot pocket fins.

AGUA

FULL FOOT SNORKELING FINS

Agua is a very easy fin to use, and doesn't require any special athletic or water-sport abilities, yet it still delivers excellent performance without tiring your feet. Thanks to the latest technology and Cressi's experience in developing these products, we've been able to markedly decrease the weight of this fin

compared to others in its category, while still preserving excellent responsiveness. The foot pocket features the original Self Adjusting Foot Pocket system, which thanks to the special softness and elasticity of the blends makes for a consistently soft and adherent fit.

RONDINELLA

FULL FOOT SNORKELING FINS

All of Cressi's fifty-year experience has gone into these fins, which are a modern revival of the successful principles of the glorious light blue rubber Rondine fins. The blade is made from light and at the same time reactive polypropylene and during moulding is coalesced with a soft, flexible thermo-rubber (elastomer), used for the foot pocket, for the

frames and for some inserts. This mix makes the Rondinella fins light and powerful: they are easy to use, not too demanding, and perform generously at the same time. The computer-designed foot is enveloping and anatomical, making it easy to put them on and perfect for extended use. Rondinella fins are perfect for snorkelling, free diving, and long swims.

SOFT ULTRA FLEXIBLE MATERIAL

Photo by: Marcello Pastonesi

LIGHT

SHORT BLADE SWIMMING FINS

The Cressi Light are specifically designed for pool use and for swim training, but can also be used adequately for recreational swimming and snorkeling. The short blade is made of a highly reactive and light material which guarantees agile and effective kicking while not tiring out your legs. The length of the blade has been researched and studied by Cressi to ensure perfect muscle training without causing cramps or discomfort. The anatomically designed foot pocket is made

from soft rubber elastomers, and it houses the foot with a great deal of comfort, even during long swimming sessions.

WHO IT IS FOR:
The Light Fins have been specifically designed for training and to build up muscles, but they can also be used for recreational swimming and snorkeling.

MINI LIGHT

KIDS SNORKELING FINS

Shoe fin with short ruffle made from 100% natural rubber. This material is highly resistant to breakage and degradation by erosion, making it suitable for use by children in the sea and swimming pool. It guarantees flexible, low-fatigue, yet effective snorkelling. The length of the fin and the materials used have been designed to allow the muscles to work perfectly without ever causing painful cramps. The front part of the sail is protected by a soft elastomer

edge to avoid injuring other swimmers. The liner is made entirely from flexible elastomer. It is anatomically shaped to keep the foot in place comfortably, even when swimming for long periods.

WAHOO

A FRONT-ZIP 2 MM NEOPRENE WETSUIT WITH SUPER-STRETCH ELASTANE PANELS.

Photo by: Marcello Pastonesi

Photo by: Marcello Pastonesi

Whatever your water sport, the Cressi Wahoo 2mm wetsuit provides excellent sun, wind and thermal protection. The front and back panels are constructed from premium 2 mm/1.5 mm neoprene, providing insulation around the core of the body, while the side of the legs and sleeves are made from ultra-stretch elastane for freedom of movement and a second-skin fit.

A high-quality YKK front zip makes the Wahoo easy to put on and remove, adding convenience for active water sports enthusiasts who are in and out of the suit multiple times a day. With its Italian-tailored fit and strategic material placement, the Cressi Wahoo offers protection from the elements without compromising flexibility.

PRODUCT	THK	MAN	LADY		RRP €

PRODUCT BENEFITS

- 1.5 mm / 2 mm neoprene panel provides light insulation around the core for warm-water activities.
- Ultra-stretch elastane panels on the sides, arms, and collar allow for complete freedom of movement and a second-skin fit.
- The long-sleeve elastane arms provide full arm coverage for UV and wind protection without the risk of chafing.
- A reliable and high-quality YKK front-zip allows for easy donning and removal, adding convenience during water sports.
- Suitable for snorkelling, swimming, windsurfing and other warm-water activities.
- Available in male and female fits.

KIDS SHORTY

KIDS SHORT SLEEVES WETSUIT 1.5mm

One-piece wetsuit for children, made from 1.5/2 mm thick neoprene (front and back) and from Elastane (sides, sleeves and collar).
YKK front zip.
Offers excellent protection from the cold and

the sun and maximum freedom of movement thanks to the areas in Elastane that won't irritate the skin whilst swimming.

Cressi
SWIM

KARUA

Photo by: Studio Nicama

KUWAE

MULTI THICKNESS MONOPIECE WETSUIT 4+3+2 mm

NEW LOW NECKLINE DESIGN

Photo by: Marcello Pastonesi

Photo by: Marcello Pastonesi

The new Cressi swimming suit is inspired by the underwater caldera Kuwae, located in the Vanuatu archipelago in the South Pacific Ocean. The coral colour of the upper part of the wetsuit recalls the lava of the volcanic eruption, like the truly explosive design. This particular colour was also chosen to give the swimmer maximum visibility when in open water.

Kuwae has been entirely designed with the help of sophisticated 3D software for the modelling of wetsuits, which made it possible to study the fitting of the materials and the different sizes on virtual mannequins. In this way, Cressi not only facilitates an innovative approach to research and development, but also obtains a positive environmental impact by eliminating unnecessary sample collections.

The different thicknesses (2-3-4 mm) of the super-elastic materials favour buoyancy, help the swimmer to achieve a perfect trim when swimming on the surface and improve the fit

in the arms/armpits, while ensuring complete freedom of movement.

The striped material insert applied in the wrist area helps to move more water during the classic freestyle stroke. The new low neckline design has been studied to avoid any friction around the neck, while maintaining a perfect seal against water infiltration.

On the inner part of the under zip panel it is possible to customize the wetsuit with your name and insert the key of any means of transport in the special pocket. The YKK back zip guarantees tightness and resistance over time: the slider is made of anti-corrosion metal material, to ensure greater sturdiness when pulling the lanyard during the closing/opening of the wetsuit.

KUWAE

SWIM MONOPIECE WETSUIT 2 mm

The new Cressi swimming suit is inspired by the underwater caldera Kuwae, located in the Vanuatu archipelago in the South Pacific Ocean. The fluorescent colour of the upper part of the wetsuit recalls the lava of the volcanic eruption, as does the truly explosive design. This particular colour was also chosen to give the swimmer maximum visibility when in open water.

Kuwae has been entirely designed with the help of sophisticated 3D software for the modelling of wetsuits, which made it possible to study the fitting of the materials and the different sizes on virtual mannequins. In this way, Cressi not only facilitates an innovative approach to research and development, but also obtains a positive environmental impact by eliminating unnecessary sample collections.

The 2.0 mm high-density Hyperstretch neoprene optimizes comfort, provides UV

protection, and protects swimmers against scratches while ensuring complete freedom of movement. The smooth exterior finish and the Glide Skin XT waterproof treatment guarantee exceptional hydrodynamics.

The new low neckline design has been studied to avoid any friction around the neck, while maintaining a perfect seal against water infiltration.

On the inner part of the under-zip panel you can customize the wetsuit with your name and stash a key for any means of transport in the special pocket. The YKK back zip guarantees tightness and durability over time: the slider is made of anti-corrosion metal material, to ensure greater sturdiness when pulling the lanyard to zip/unzip the wetsuit.

KARUA

MULTI THICKNESS MONOPIECE WETSUIT 3+2 mm

Photo by: Studio Nicama

The new Cressi hybrid wetsuit is inspired by the underwater caldera Karua, located in the Vanuatu archipelago in the South Pacific Ocean. The graphics at the wetsuit's sleeves recall the lava of the volcanic eruption. The fluorescent-coloured sleeves, the upper back panel, and the ankles give maximum visibility when in open water.

Karua has been entirely designed with the help of sophisticated 3D software for the modelling of wetsuits, which made it possible to study the fitting of the materials and the different sizes on virtual mannequins. In this way, Cressi not only facilitates an innovative approach to research and development, but also obtains a positive environmental impact by eliminating unnecessary sample collections.

Both the exterior and interior are smooth, comfortable and durable nylon-covered 3mm Ultrastretch neoprene, which provides

a great flexibility, UV protection, and protects swimmers against scratches while ensuring complete freedom of movement. The perfect thin hybrid wetsuit for those who are looking for a suit for swimming, snorkelling, surfing, paddling, canyoning, and all other experiences in the water.

The new low neckline design with the 2mm Glide Skin XT neoprene has been studied to avoid any friction around the neck, while maintaining a perfect seal against water infiltration.

On the inner part of the under-zip panel, you can customize the wetsuit with your name and stash a key for any means of transport in the special pocket. The YKK back zip guarantees tightness and durability over time: the slider is made of anti-corrosion metal material, to ensure greater sturdiness when pulling the lanyard to zip/unzip the wetsuit.

GUARDIAN PEAKED HOOD

NEOPRENE HOOD 2 mm

31x43.2 cm - 12.2x17 in

The Peaked Hood Neoprene Cap is expertly designed for surface water environments and sports. Crafted from soft, high-elasticity double-lined neoprene, this hood provides exceptional comfort and long-lasting durability. It is perfect for various water sports, ensuring an enhanced experience with its practical features. The small visor is a standout design

element, effectively shielding your eyes from the sun's rays and glare, allowing for better visibility and protection. Whether you're kayaking, surfing, or engaging in other aquatic activities, this hood ensures you stay comfortable and protected.

Cressi Shield Rash Guard are designed for all water sports. The composition of the fabric enables the clothes to dry very quickly and provide protection from harmful UV rays.

The elasticity of these rash guards and the flat seams offer complete comfort during movement, while maintaining excellent resistance to any abrasions caused by rubbing in the water.

GLIDE PRO

2 VALVES, 2 CHAMBERS

NEW 2026

Glide Pro is the advanced version of our swim buoy, offering enhanced safety and performance for open water swimmers. Constructed from tough, high-visibility yellow material, it ensures you stay seen and safe. Unlike the standard Glide, the Glide Pro features two separate inflatable chambers, each with its external valve for easy inflation and added

security in case of partial deflation. It also includes an internal dry pocket with roll-top closure to keep valuables protected from water, a durable lanyard for waist attachment, and a top buckle with built-in whistle for emergency signaling. Glide Pro is the perfect choice for swimmers who demand maximum safety without compromising on functionality.

GLIDE

1 VALVE, 1 CHAMBER

NEW 2026

Glide is a robust and highly visible swim buoy designed for safety and practicality during open water swimming. Made from durable orange material, it ensures maximum visibility at sea. It features an internal dry pocket with roll-top closure to keep personal items safe and dry. The inflatable air chamber is easy to fill thanks

to the external valve, keeping the buoy steady on the water's surface. A strong lanyard allows secure waist attachment, and the top buckle includes a built-in whistle—perfect for drawing attention if needed. Ideal for open water swimmers, Glide combines safety, convenience, and reliability in one essential accessory.

WALRUS NEW 2026

WALRUS 35L: WHERE ENGINEERING MEETS AESTHETICS

DIMENSIONS

Volume	35 L
Dimensions	55 cm x Ø 28 cm 21.7 in x Ø 11 in

Imagine a backpack that transforms like a chameleon, adapting perfectly to your needs. The Walrus redefines the concept of versatility, easily transforming into a practical duffel bag. With a capacity of 35 liters, it is designed to store your swimming gear, technical clothing, and, why not, your travel accessories optimally. The dry bottom and pocket offer effective protection against moisture, ensuring that your belongings stay dry even in the most

demanding conditions. The Walrus boasts five strategic compartments, including an external pocket ideal for shoes. The perimeter zip ensures quick and easy access to bulky items, while reflective strips increase visibility and safety during evening commutes. Its modularity, allowing configurations ranging from ergonomic backpack to hand bag, makes it perfect for every need.

45L POOL DUFFLE BAG: FOR FAMILIES

DIMENSIONS

Volume	45 L
Dimensions	26 x 64 x 28 cm 10.2 x 25.2 x 11 in

Olimpia exceeds the traditional limits of sports duffels. Its 45L internal space and modular carrying system make it a versatile tool for professionals, athletes, and discerning travelers. The technical design incorporates a water-repellent bottom for total protection against wet conditions. Three external storage configurations - breathable mesh for footwear, a waterproof pocket for electronic devices, and a compartment for small accessories - meet

the criteria of efficiency and rationalization of space. The maxi perimeter zip allows quick loading and total accessibility, enabling even voluminous items to be handled easily. The unique carrying configuration adapts to three modes: dynamic shoulder strap, professional handle, and backpack arrangement for extreme mobility.

LEÒN

NEW 2026

22L SNORKELING BACKPACK

Inspired by practicality and urban living, Leòn combines technical design and everyday comfort in a compact format. With a smart layout and numerous dedicated pockets, the backpack offers all the space you need to organise your day. The two front pockets have been specially designed to hold a mask and snorkel, making it ideal for those who love to dive whenever they get the chance, without sacrificing urban practicality. Designed with a spacious main compartment and a padded 16" laptop pocket. Internal and external

compartments help you keep wet items separate from dry ones or personal belongings from sports gear. The ergonomic, breathable back panel, together with the padded, adjustable shoulder straps, ensures maximum comfort even on longer walks or particularly hot days. Thanks to its compact structure and well-distributed weight, the backpack remains stable on your back.

SUNGLASSES

/ SUNGLASSES | SHIELD YOUR EYES

Photo by: Studio Nicama

CRESSI LENSES TECHNOLOGY

HTC TREATMENT

The HTC treatment that Cressi has perfected protects the lenses from dirt and is water-repellent. It combines the benefits of multilayer anti-reflective treatments with the hardening treatment. This is the best treatment that Cressi Sunglasses has ever produced on sunglass lenses. Thanks to the protective HTC (Hydrophobic Tech Coating) treatment, droplets of water slide from the surfaces, leaving them free of streaks and dirt. This protection makes the lenses more durable and long-lasting, for sharp and defined vision. The HTC layer helps the lens stay resistant to dirt, and makes it super smooth and easy to clean.

STANDARD LENSES

HYDROPHOBIC LENSES

POLARIZED LENSES

POLARISING FILTER

The polarising filter adopted by CRESSI to make its lenses antireflection and anti-glare ensures ultra clear vision at all times. CRESSI's polarised glasses block the blinding light reflected by a horizontal surface, such as water or an asphalted road, and at the same time allow the vertical light to reach the eye. Vertical light is important for the human eye and makes for improved vision.

CRESSI sunglasses are characterised by superior optical quality, they block reflections and ensure 100% protection against UV rays. The lenses offer crystal clear vision, rich in detail, and enhance contrast while protecting the eyes from harmful rays. Taken together, all these features make for enhanced comfort while minimising eye fatigue.

BILL**SUNGLASSES WITH FLOATING LACE**

17x8.5x7 cm - 6.6x3.3x2.7 in

The new Bill sunglasses are the perfect product for lovers of water activities. Their lace is made of a special foam that gives the frame the ability to float, ensuring safety and easy recovery in the event of a fall into the water. Polarized lenses with hydrophobic anti-drip treatment ensure clear vision even in the presence of water, splashes and wet conditions, offering excellent protection from the harmful

effects of the sun's rays. The ergonomic design of the Bill sunglasses is designed to ensure a firm and secure grip, thanks to the presence of an anti-slip grip on the frame, making them ideal for all water sports and recreational activities.

NINJA FLOATING

FLOATING, POLARIZED AND HYDROFOBIC
SUNGLASSES

17x8.5x7 cm - 6.6x3.3x2.7 in

Ninja sunglasses are just perfect for those practising sports in general, and especially for those who enjoy fishing, jet skiing, windsurfing and sailing. This special floating version confirms that their ideal use is in water sports. The solar filters in the lenses offer 100% protection from UV rays, block luminous reflections and glare, ensuring crystal clear vision and good contrast.

Thanks to the WRH treatment that makes them water-repellent and hydrophobic, the lenses remain clean at all times, yet another feature that makes these glasses indispensable when boating or sailing. The antireflection treatment also comes in handy when driving, in that it drastically reduces reflection from the road surface and improves vision.

BAHIA FLOATING

FLOATING, POLARIZED AND HYDROFOBIC SUNGLASSES

17x8.5x7 cm - 6.6x3.3x2.7 in

Bahia Floating sunglasses are an essential companion for water sports thanks to their ability to float. Polarised lenses with UV protection and anti-reflective treatment offer clear vision, reduce glare and protect the eyes from harmful rays. With wrap-around temples, they fit comfortably during action. In addition, they come with a practical hard case for

protection. These glasses combine safety and style, making water sports a more enjoyable experience. With Bahia sunglasses, you will not only be fashionable, but enjoy clear vision while floating carefree on the water.

ROCKER FLOATING

FLOATING, POLARIZED AND HYDROFOBIC SUNGLASSES

17x8.5x7 cm - 6.6x3.3x2.7 in

The rocker was created to protect the view near water. They provide 100% protection from UV rays, blocking light reflections and glare. They guarantee clear vision and contrast. Thanks to the wrh treatment (water repellent and hydrophobic) the lenses stay clean. The anti-

reflective coating is appreciated while driving as it strongly reduces reflections from the asphalt and improves vision. Indispensable at the sea, on the beach, on a boat or when sailing.

NINJA

POLARIZED AND HYDROFOBIC SUNGLASSES

17x8.5x7 cm - 6.6x3.3x2.7 in

Ninja sunglasses have been specially designed by CRESSI to protect your eyesight in the proximity of water. Cressi Ninja solar filters ensure 100% protection from UV rays, block dazzling reflections and glare, making for ultra clear, well-contrasted vision. Thanks to the WRH treatment that makes them water-repellent and hydrophobic, the lenses remain clean at all times, yet another feature that

makes these glasses indispensable when boating or sailing. The antireflection treatment also comes in handy when driving, in that it drastically reduces reflection from the asphalt and improves vision. Highly appreciated in the traditional version with black temples, they are now proposed in a mimetic version, renewing the success that made them famous.

KIDDO

KIDS SUNGLASSES, AGE 6+

The mirrored lenses mounted on these glasses are treated with advanced REVO coatings that return excellent performance in different light conditions and in any environment. The mirroring of the lens guarantees the maximum possible brightness and a high-definition lens. Cressi sunglass lenses are designed to protect your eyes from the sun, including near the water, and they shield against all UV rays, so you can savor the sunshine while enjoying comfortable vision. If your eyes are sensitive to the light, choose a dark shade. Lighter and gradient lenses are perfect for cloudy skies with little sunlight, while darker lenses protect your eyes in bright sunlight. The polarizing filter in

the Cressi sunglasses guarantees sharp vision free of reflections and glare. Cressi polarized sunglasses block harmful sunlight reflected from horizontal surfaces, such as water or a road surface, while allowing vertical light to reach the eye. Vertical light is important for human eyes and improves vision. Cressi sunglasses have superior optical quality; they block reflections and protect against UV rays. They offer sharp vision that is rich in detail and increases contrast, protecting the eyes from harmful rays. This combination improves comfort and decreases eye fatigue.

AQUATREK PRO

ULTRA COMFORTABLE WATER SHOES

The AquaTrek Pro is a comfortable water shoe engineered for marine environments. Its specialized anti-slip sole ensures stability on various surfaces. The neoprene upper, combined with nylon mesh, facilitates easy slip-on compared to traditional neoprene shoes. Designed for versatility, it transitions seamlessly between water and land activities. Whether

walking on rocky shores or sandy beaches, the AquaTrekPro provides reliable traction and protection. Its lightweight construction and breathable materials enhance comfort during prolonged wear. The practical double puller allows the shoe to be easily slipped on and holds tight even during sports activities in and at the water.

REEF

WATER SHOES

Reef water shoes have become a classic in Cressi's wide product range, and have earned a top position among our footwear. These shoes are ideal for all water sports thanks to the secure-fit closure.

The upper is a special breathable elasticized mesh material. The new non-skid sole has an improved design that increases the coefficient of friction.

CORAL

BEACH SHOES

Cressi Coral are form-fitting and lightweight beach shoes for adults, children and youth. Suitable for walking on the street, near water and in water, excellent for boating. They'll protect your feet from scorching sand, rocks, sea-urchins, reefs, and rough sea beds. Can be

worn without socks. The upper, in neoprene and honeycomb fabric, lets the foot breathe. The flexible sole protects the arch of the foot from contact with the ground and is antigrip.

TROPEA

POOL AND AQUA SOCKS

TURQUOISE

BLACK

Tropea socks are the innovative solution for those seeking protection, freedom of movement and total versatility in the water. Designed for use in the pool but also perfect for the sea, they combine the lightness of a sock with the reliability of technical footwear. The rigid sole, specially designed for wet and slippery environments, guarantees stability and exceptional grip on all surfaces, from pool edges to rocky seabeds. The heart of the model is the upper in elastic draining fabric, which fits like a second skin to the foot, following every movement without

tightening or causing discomfort. Thanks to the micro-perforated structure, water drains quickly, promoting rapid drying even out of the water. In addition, the transpiring material keeps the foot cool and protected, minimising friction. Easy to put on and take off, the Tropea offers a secure fit with no need for adjustment. Ideal for swimmers, beach walkers or simply water lovers, they are the perfect choice for those who want to move with confidence and comfort both in the pool and along the coast. Compact, high-performance and ready for anything, the Tropea brings freedom to your feet.

LUCA

CLOSED ADULT SANDALS

BLACK/YELLOW

BLACK/BLUE

The "Luca" hiking sandal is the perfect companion for outdoor adventures, crafted to provide comfort, safety, and versatility. Featuring a durable rubber toe cap that wraps around and shields the toes, the sandal ensures a secure stride even on rugged terrains. Convenience takes center stage in the design, with an adjustable heel strap secured by a Velcro closure and an elastic lace around the collar, allowing for a customized fit that is quick and easy to adjust to individual feet.

Especially well-suited for excursions in aquatic environments, the "Luca" sandal allows the foot to breathe, thanks to its breathable structure. The combination of high-quality materials ensures durability and resilience, while the robust sole provides excellent traction on varying terrains. With its contemporary style and user-friendly adjustments, the "Luca" sandal is the perfect choice for those seeking a reliable companion to explore nature with both style and confidence.

PORTOFINO

FLIP-FLOP

BLUE

BLACK/LIGHTBLUE

TECHNICAL FEATURES

- The strap material is very comfortable even between the toes: it doesn't rub or scrape, as it is made of soft fabric
- Multilayered, ergonomic footbed, with a deepened stamped antislip inscription
- Very comfortable flip-flops for adults. Really functional shoes for wet, uneven ground and sand
- Very light, therefore ideal for sports and travel luggage
- Quick-drying and washable material
- Classic and casual flip-flops, ideal for beach and pool
- Very robust and soft antislip sole

As the name suggests, Portofino is a popular, well known and fashionable village of the Ligurian Coast (Riviera). It rises in a sheltered bay in the Gulf of Tigullio, where the untouched

nature is combined with this simple fishing village and its alleys with colorful narrow houses, one built over the other. These flip-flops are the expression of a similar quite elegance.

LEAF

NATURAL RUBBER FLIP-FLOP

The Cressi Leaf flip-flops, made of natural rubber, are a comfortable and versatile choice for the summer. Thanks to their lightness and the comfort they offer, these flip-flops are perfect for everyday use. The natural rubber used in their production is also water-resistant, ensuring the flip-flops dry quickly and making

them easy to clean. Their simple and functional design makes them easy to put on and take off, while the range of colours available adapts to each customer's needs. Cressi flip-flops made of natural rubber offer the perfect combination of style and functionality.

ST TROPEZ

NEW 2026

LADY FLIP-FLOP

LILAC/LIME

BLACK/FUCHSIA

NAVY/PINK

PINK/CORAL

AQUAMARINE/PINK

Cressi's St Tropez flip-flops are the must-have summer accessory for all women and girls who want to enjoy the warm weather in style, comfort and lightness. Designed to accompany you everywhere – from the beach to a stroll along the seafront to the hot city – these flip-flops combine simplicity and functionality in a fresh and timeless design. The high-density EVA sole is durable, non-deformable and offers excellent cushioning even after hours of use. It is easy to clean (just rinse with water!) and is

ideal for all types of surfaces, from hot sand to sunny pavements. The slightly contoured footbed ensures a stable and comfortable fit, preventing your feet from slipping even when wet. The design is simple but with attention to detail: a comfortable fit, soft straps that don't irritate, and a silhouette that enhances the foot without constricting it. What's more, the colour palette is a summer explosion – from elegant classics to bold pop tones.

TECHNICAL FEATURES

- Flip flops in soft and comfortable long-lasting rubbery material
- Cressi logo embossed on thong upper
- Ideal for the shower
- Quick drying
- Italian Design

JOY

REPRICED 2026

JUNIOR SUMMER SANDALS

AZURE/BLUE

PINK/BLACK

The "Joy" kids' hiking sandal is the perfect companion for outdoor adventures for the little ones, designed to provide comfort, safety, and versatility. Equipped with a durable rubber toe cap that wraps around and protects the toes, the sandal ensures a secure walk even on rugged terrains. Practicality is at the heart of the design, featuring a convenient elastic closure around the foot's collar for a personalized and easy fit. Particularly suitable for excursions in aquatic environments, the "Joy" sandal allows

little feet to breathe, thanks to its breathable structure. The combination of high-quality materials ensures durability and resistance, while the sturdy sole provides excellent traction on various terrains. With its contemporary style and user-friendly adjustments, the "Joy" sandal is the perfect choice for parents seeking a reliable companion to allow their children to explore nature with style and safety.

TABBY

NEW 2026

JUNIOR SUMMER SANDALS

AZURE/AQUAMARINE

FUCHSIA/PINK

Tabby Cressi beach sandals are the perfect choice for every young adventurer! Designed to withstand the challenges of summer, they are lightweight, comfortable and breathable, ideal for taking children to the beach, the pool or on outdoor excursions. The outer upper is made of water-resistant TPU, ensuring durability even when in contact with sand and salt water.

The inner sole, with its non-slip texture, keeps feet stable at all times, while the side holes ensure excellent breathability. Easy to put on and adjust thanks to the practical straps, these super colourful sandals combine style and functionality in a single product. Perfect for having fun in total safety!

NEW 2026

JUNIOR SUMMER SANDALS

AZURE

PINK

Perfect for little ones' summer adventures, these spider-style rubber shoes combine functionality and design in a concentrated dose of comfort and practicality. Made from ultra-soft, flexible material, they guarantee maximum breathability thanks to their perforated structure, ideal for days at the beach or by the sea. Feet stay cool and protected, while water slips away easily. Available in delicate pastel colours, blue and pink, they win you

over with their playful and cheerful look. The adjustable side buckle makes them quick and easy to put on. Non-slip and lightweight, they accompany every step safely on sand, rocks or wet surfaces. A perfect mix of style and functionality, designed for little explorers and approved by parents. Ideal from the first steps onwards, they become the perfect companion for a carefree summer.
